# HP Latex Mobile

Your printer in your pocket.[1]

HP Latex Mobile[1] marks a new era of smart printers. This app enables you to receive helpful consumables alerts while also remotely monitoring your printer and job status. Print with greater confidence, especially as you no longer have to worry about the status of print jobs while you're away from the printer.
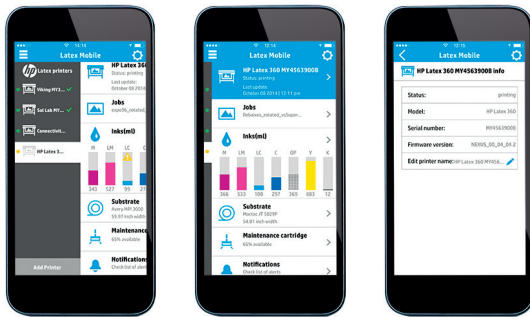

[1] As of January 1st, 2015, only Latex 300 Series printers are supported. Additional printer support will be announced when available. HP Latex Mobile is compatible with Apple® iOS and Android™ smart phones and requires the printer and the smartphone to be connected to the internet.

Rely on alerts to inform you when attention is needed

No more wondering what's going on with your printer while you're away:

- Alerts inform you about supplies, the substrate path, and situations when the printer is not ready
- Return to your printer and take action once you've been alerted

Know the status of your printer while you're away from it

HP Latex Mobile app offers insight into printer activity and ink and media levels:

- Follow printer activity remotely and gain an awareness of your printer at all times
- Stay abreast of ink levels and the amount of media remaining to avoid surprises and respond accordingly

Remotely keep tabs on print jobs

HP Latex Mobile app enables you to monitor job completion and job history:

- Track print jobs through to completion[2]
- Monitor jobs printed via job history

Available as of January '15 at:

HP Latex 310 Printer
Your entry option to outdoor—and a perfect fit for small spaces

HP Latex 330 Printer
Gain affordable access to indoor and outdoor signage

HP Latex 360 Printer
Designed to handle highly demanding turnarounds

[2] Printer updates occur roughly every five minutes during the printing process and every several hours when the printer is idle.
