

HP Planet Partners helps power a circular economy.

HP Planet Partners is our repurpose and recycling program for HP end-of-life equipment and printing supplies. Once you're done with your HP products, we can help repurpose or recycle them.

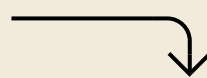

Electronic products contain valuable materials such as metals, plastics, and glass that can be repurposed and recycled. Repurposing these materials helps conserve natural resources and reduces the need for raw material extraction, a significant contributor to environmental degradation.

By recycling your e-waste, you are helping reduce the environmental impact of electronic waste and greenhouse gas emissions, and support a more sustainable, circular economy.

Together we can help

precious resources

don't go to waste

How to participate in HP Planet Partners Program

Set up your account

Visit our website: www.hp.com/recycle

Select your region, country and product category you wish to recycle.

Follow instruction:

Fill in customer information including password, read HP Privacy Statement, and select SIGN UP to finish the registration.

An e-mail will be sent to the email address provided to confirm the registration

Box delivery & Collection Service

After select "Recycle" at the top, or "Start a new order" at the bottom, click on "Box delivery & Collection Service."

For box delivery:

After selecting the product category, you wish to recycle, click on "box delivery service"

Select the type of box and quantity you need to order.
(Max. quantity is 10 boxes per order)

Fill out contact information and pick up address.

After completing the order, you will receive the box within few days.

For Collection Service:

After selecting the product category, you wish to recycle, click on "box collection service"

Select the type of box and the quantity that needs to be collected.
(For some countries, you must choose a date range for pick up availability)

Fill out contact information and pick up address.

After completing the order, you will be contacted within 4-5 days to finalize date and time of pick-up.

How to recycle our carton-based ink cartridges

Ink bags collection guidance

Lower your plastic impact

Post-consumer plastics in our oceans and landfills present a global environmental pollution issue that must be curbed. This is the reason why HP is focused on minimizing our plastics and moved towards cartridges that are carton based, using 100% recycled cardboard and an inner ink bag recyclable with HP Planet Partners.¹

2020
Plastic reduction

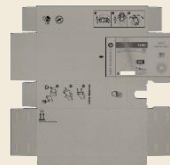

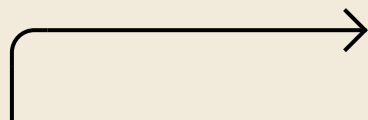

2023
100% Recycled cardboard
Label removal

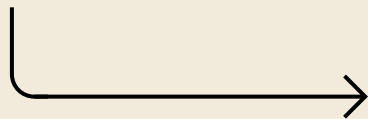

Ink bags collection guidance

Once cartridge is empty, open the cardboard box of the cartridge from the top. And separate the outer cardboard and the inner materials.

Dispose the outer carton locally through local cardboard/ paper program

The inner materials including the ink bag can be returned free of charge to the [HP Planet Partners program](#)
