

Repurpose and recycle today

HP Planet Partners helps power a circular economy.

HP Planet Partners is our repurpose and recycling program for HP end-of-life equipment and printing supplies. Once you're done with your HP products, we can help repurpose or recycle them.

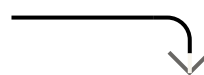

Electronic products contain valuable materials such as metals, plastics, and glass that can be repurposed and recycled. Repurposing these materials helps conserve natural resources and reduces the need for raw material extraction, a significant contributor to environmental degradation.

By recycling your e-waste, you are helping reduce the environmental impact of electronic waste and greenhouse gas emissions, and support a more sustainable, circular economy.

Together we can help

precious resources

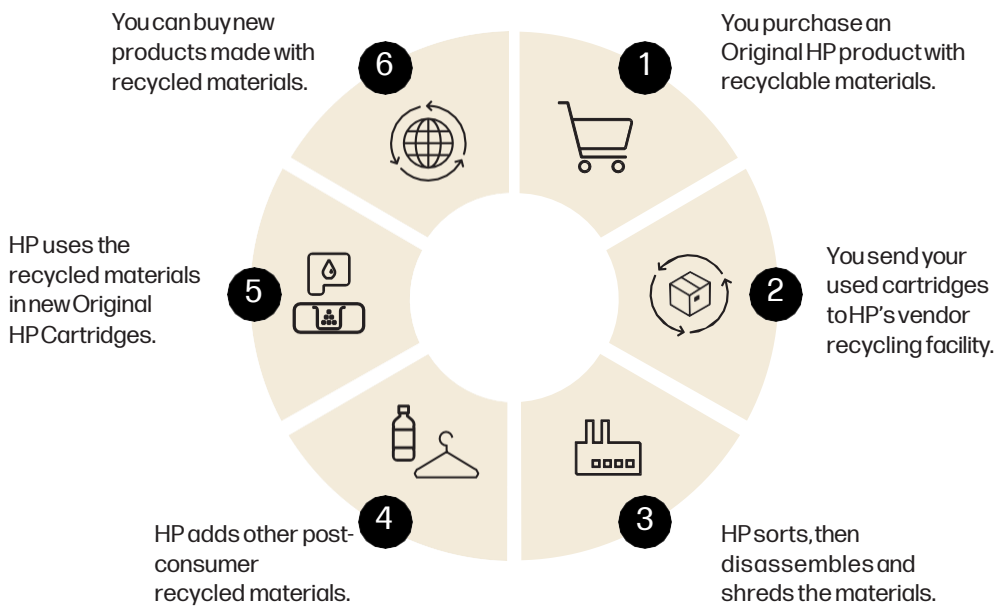

don't go to waste

HP closed-loop recycling

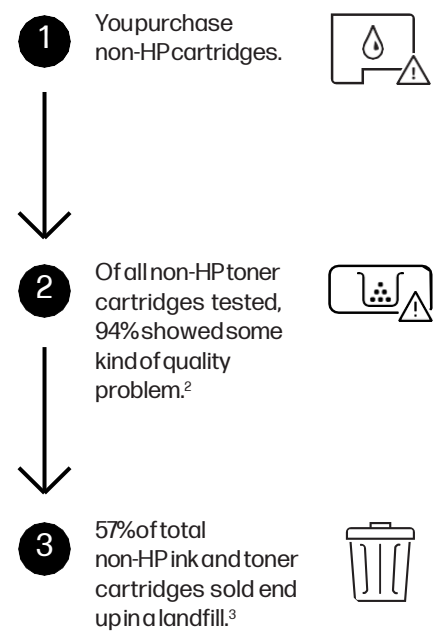

When you choose Original HP Cartridges and recycle through HP Planet Partners, you become part of a more circular, sustainable system—where materials are reused to make new products and help keep plastics out of landfills.¹

Circular closed-loop economy

Linear economy

Bring used products back to life

In HP's closed-loop process, almost every part of the ink or toner cartridge is either recycled or reused; nothing goes to a landfill. HP combines cartridges returned through HP Planet Partners with other plastics, such as reclaimed ocean-bound plastic bottles, to make new Original HP Printer Cartridges. Programme availability varies. See hp.com/hprecycle.

When you return Original HP Ink and Toner Cartridges to HP Planet Partners for recycling,

you join a global sustainability effort¹ and your used cartridges won't go into landfills—

they become renewed plastics that help close the loop¹

Did you know?

Remanufacturing does not necessarily prevent cartridges from ending up in landfills. 61% of remanufactured ink and toner cartridges were remanufactured only one time and over 1/2 of remanufactured ink and toner cartridges sold will end up in landfills.³

HP Planet Partners¹

Help HP create a greater sustainable impact: HP Planet Partners¹ program details for partners

HP Planet Partners manages a broad network of HP third-party recycling vendors.

60+

Countries where HP offers ink and toner recycling.¹

1 billion+

print cartridges returned to the HP Planet Partners recycling programme as of December 31, 2022.²

Qualified products

Only Original HP and Samsung Toner Cartridges and Original HP Ink Cartridges sold to direct customers are eligible for this recycling program. Qualified products include:

- Original HP Ink Cartridges, CISS bottles, and printheads
- Original HP and Samsung Toner Cartridges
- Original HP Long Life Consumables
- HP Graphics and 3D Cartridges and printheads
- Ink Bottles and Toner Kit Reload

Non-qualified products

To keep program recycling efficient and effective, please be sure NOT to include any of the following with returned cartridges:

- Non-HP or non-Samsung brand toner cartridges
- Non-HP brand ink cartridges
- Refilled, remanufactured, relabeled or clone cartridges
- Cartridges collected by third parties

Return HP cartridges in bulk

Box delivery/collection service:

Order box delivery and pick-up services for bulk quantities; Premium Service is also available for a minimum return of 1,500 toner or 15,000 ink cartridges/year.³ (For companies only.)

All items must be sorted separately by supply type before being returned.

How does it work?

Setup your account

Visit our website:
www.hp.com/recycle

Select your region, country and product category you wish to recycle.

Fill in customer information including password, read HP Privacy Statement, and select SIGN UP to finish the registration.

An e-mail will be sent to the email address provided to confirm the registration

Return HP cartridges in a variety of ways³

Mail it back

Order free shipping labels, envelopes, or boxes for an easy pack-and-ship experience

Box delivery & collection

Order box delivery and pick-up services for bulk quantities. Services available may differ depending on the country. To request HP's supplies recycling service, go to hp.com/hprecycle.

Start a new order

For box delivery

After selecting the product category, you wish to recycle, click on "box delivery service":

- ➔ Select the type of box and quantity you need to order.
- ➔ Fill out contact information and pick up address.
- ➔ After completing the order, you will receive the box within few days.

For Collection Service

After selecting the product category, you wish to recycle, click on "box collection service":

- ➔ Select the type of box and the quantity that needs to be collected. (For some countries, you must choose a date range for pick up availability)
- ➔ Fill out contact information and pick up address.
- ➔ After completing the order, you will be contacted within 4-5 days to finalize date and time of pick-up.

How does it work?

How to recycle the HP carton-based cartridges

Post-consumer plastics in our oceans and landfills present a global environmental pollution issue that must be curbed. This is the reason why HP is focused on minimizing our plastics and moved towards cartridges that are carton based, using 100% recycled cardboard and an inner ink bag recyclable with HP Planet Partners.¹

2020
Plastic reduction

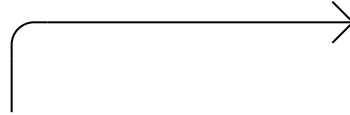

2023
100% Recycled cardboard
Label removal

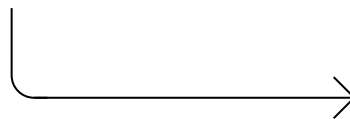

Ink bags collection guidance

Once cartridge is empty, open the cardboard box of the cartridge from the top. And separate the outer cardboard and the inner materials.

Dispose the outer carton locally through local cardboard/ paper program

The inner materials including the ink bag can be returned free of charge to the [HP Planet Partners program](#)
